

SM(N) Series

Stainless Steel Mechanical Dial Scale

Yamato

The Accu-Weigh® SM(N) Series of stainless steel mechanical scales, with capacities ranging from 2 lb to 50 lb (900 g to 22 kg), can suit many applications; with stainless steel construction and NSF certification they are particularly appropriate for food service. The air dashpot option is convenient for fast, high volume weighing applications. The dashpot acts as a “shock absorber” to reduce the oscillations of the indicator needle providing faster weight readings. A snap-on stainless steel platform is standard and two bowl options (2 2/3 quart bowl and 4 1/4 quart bowl) are available.
